Research Methods in Computer Science

2110607

Assoc. Prof. **Proadpran** Punyabukkana, Ph.D Computer **Engineering** | **Chulalongkorn** University

Course policies

- All course correspondence will be done through CourseVille
- www.mycourseville.com
 PW 2110607 + FB group
- HyFlex classes: onsite and Zoom
- This course is a self-discovery-based and hands-on (with guidance)
- Final product from this course
 - Your own (probable) thesis topic/research direction ผ่างกังในที่จะทำ
 - o Your prospective advisor(s)
 - o Your draft of proposal โกรสาบานยาในเร

Learning Outcomes

- Understand research (in your area) เทาใจเกมร์สุ่ง
- Identify how and where to obtain "good" papers ระบารอานา ของปร
- Can classify "good" papers รามนา paper อีโมดี Know how researchers write ผู้ตัดวิจัยดีจาการีเร
- Start writing like researcher
- Give professional presentation มา เสนองใหม่งาน 0

Criteria for Graduation

Let's research on what is "research in computer science"?

CS เป็นวิจัยการิกายาฟรสง

First

Without searching the internet or reading from anywhere -

Write down the definition of "Research" as you understand at the moment.

Es lalino do collect To Infinal

Now, you can consult the internet.

Rules: wiki Tita mailions assumption

- Must come from various reliable sources

Then, give a 1 -minute presentation

The Man Who lared only numb of

First homework 10% Due next week

- 1. Research on "What is research and Types of research in Computer Science". Write up what you learn about research in your own words in Thai or English with correct citations. May use ChatGPT to complete your writing.
- 2. Read your first paper "Scientific methods in computer science" by G. Dodig-Crnkovic (2002) [1] and summarize the paper in your own words and compare your writing with the results from ChatGPT.
- 3. Prepare a short presentation for both items for the next class.
- 4. Submit your works in myCourseVille.

[1] Dodig-Crnkovic, G. (2002, April). Scientific methods in computer science. In *Proceedings of the Conference for the Promotion of Research in IT at New Universities and at University Colleges in Sweden, Skövde, Suecia* (pp. 126-130)
